

An appeal to our extended family, as we prepare for our 50th year

R V College of Engineering (RVCE), established in 1963, is today one of India's best-known centers of educational excellence. We are happy to announce plans for our golden jubilee from July 2013.

Fifty years is a big milestone, and we plan to mark it with a six-storey Golden Jubilee Alumni Block to house our laboratories, incubation centre, auditorium, workshops and placement office. The Project is expected to cost ` 18 Crore.

We appeal to all alumni to contribute liberally towards the alumni Block. Please send your contributions, in multiples of ` 10,000 or \$1000, to in favour of "RSS Trust, Payable at Bangalore", A/c No. 136010112012, ING Vysya Bank, RVCE Branch.

We also invite you to Alumni Day meet on October 2, 2011, where we would like to discuss plans for the golden jubilee celebrations and institutional roadmap for the next decade. Our objective is for RVCE to rank among the top 100 institutions in Asia, in the next decade.

Through the years

RVCE began humbly with three undergraduate courses – Civil Engineering, Mechanical Engineering and Electrical Engineering. Today, we offer an impressive array of 12 undergraduate courses and 20 postgraduate courses. We also run several top-notch research centers on our campus.

The college has grown steadily over the years. In 1963, the classes and labs were housed in just 1,200 sq.m. Today, they cover 80,500 sq.m.

As the college grew, so did its extended family of students and faculty. With industry-oriented labs and an entrepreneurship development cell in place, the college has acquired a reputation for producing professionals of the highest quality.

The good work has won RVCE much praise and autonomy. We are proud of RVCE alumni who work in leading organizations in India and abroad.

We call upon our fraternity of distinguished achievers to contribute towards the success of RVCE's golden jubilee celebrations.
