AN APPEAL TO ALL PARENTS

This appeal is sent to you for the smooth running of academic activities at RV college of Engineering.

We have been receiving multiple phone calls and emails from parents and students. We would like to clarify the following points and request you to co-operate with the institution in the interest of your ward.

It is true that a few students had cold and cough during the last week. All the students who had cold and cough were immediately isolated and were made to stay in isolated rooms in a different block and were taken care. Arrangements were made to test them for COVID and all of them were tested negative.

We in RV take care of your ward with utmost dedication by the support of more than 100 faculty and staff of RVCE in different groups. We are following all the COVID protocols given by the Government of Karnataka and other compliance agencies from time to time. The basic requirements to avoid spread of COVID viz. wearing of face mask, maintaining social distancing and sanitizing the hands are mandatory in RVCE and all are scrupulously followed.

All our faculty and supporting staff, numbering 650 attend to their duties from June 2020 without any problem. Few cases identified for COVID has been isolated immediately and proper treatments were given and all of them have returned to duties before December 2020. We organised COVID testing for all our employees and residents of RVCE including outsourcing staff.

On 20th Feb. 2021, we came to know that one student was Covid positive. Immediately, we have informed him to be in home quarantine. All the hostels, mess and academic areas have been sanitized. We have facilitated Covid Test for 253 students & staff in the campus on 21st Feb. 2021 and another 200 tests will be done for boarders of Girls Hostels and staff today i.e. 22.2.21.

Such of the students travelling from Kerala, Maharashtra and New Delhi, are hereby informed to bring Covid negative test report and 72 hours before entering into the campus and they can attend the tests / examination. We would like to bring to the notice of all students and parents that, there will be no online classes / tests / examination, since the situation is not bad as exaggerated through the mails. Everything will be in offline mode only.

Once again, we request you fervently to cooperate with the institution in nurturing your child's future. We will definitely take care of your ward in the campus / hostels. Parents and students are requested not be panic about the situation.

With kind regards

Principal
