Innovative Teaching methods practiced

The purpose of education is not just making a student literate but adds rationale thinking, knowledge gaining and self sufficiency. When there is a willingness to change, there is hope for progress in any field. Creativity can be developed and innovation benefits both students and teachers.

In addition to use of modern ICT enabled tools, the following approaches are used for Effective Teaching-Learning process, which enables continues improvement in creating interest about the course.

Just a try :

- ❖ Teaching with sense of humour.
- ❖ Use of subject related Educational Audio & Video Tools.
- ❖ Introduce the concept through active learning.
- ❖ Relating and demonstrating through real life situations.
- ❖ Correlate with real life examples for better understanding of concepts.
- ❖ Introduce the topic like a story.
- ❖ Give ideas for writing assignments.

Dr. Shantharam Nayak
Professor, ISE, RVCE.
