### CIRCULAR

**Sub: Consent from Parents for ONLINE / OFFLINE CLASSES from 17th November 2020 onwards: Reg..**

**Dear Parent,**

**Greetings from RV College of Engineering, Bengaluru !!**

The COVID-19 pandemic has affected educational systems worldwide, leading to the near-total closures of schools, universities and colleges. Most governments around the world have temporarily closed educational institutions in an attempt to reduce the spread of COVID-19. As of 30th October 2020, Karnataka Government has released a press note indicating the opening of professional colleges (Engineering, Medical and Diploma) **from 17th November 2020 onwards** and permitting the educational institutions to conduct off line classes to students strictly following the **SoP** and as per the Government and University Directions. In this regard, the Government has requested the institutions to get the feedback and consent from the parents and students before resuming their activities in the college premises.

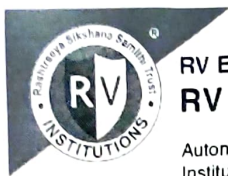

**We, at RVCE have made elaborate arrangements for conducting the offline classes with standard operating procedures.** The entire campus is sanitized once in three days. All labs, class rooms and study areas have been cleaned up and hostels are ready for occupation.

As per the norms of the government and various statutory bodies through their notifications issued on time to time, we are implementing the instructions given by those circulars. We have constituted various committees in the institution to look after the welfare of your ward. With all our efforts we are confident of conducting **offline classes** without compromising student safety and protect their interest.

We request the co-operation of all parents in sending your wards to the college with your valuable advice to wear the mask, always maintain social distance & wash hands/sanitize as often as possible. **Without mask and thermal screening students are not permitted to enter inside the campus.** With these precautions we are confident of manoeuvring COVID-19.

To ensure safety of the hostel residents the following precautions are being taken

1. Disinfection of the complete hostel area once in 3 days to material receipts like provisions or other deliveries including post are received at common place, sanitized and delivered;
2. Strict social distance is to be maintained among the staff of the hostels and all staffs are always on masks and sanitizers are provided at multiple points;
3. Disposal of wastes are done as per standard protocols;
4. Preventing students not to go out of the campus to ensure their safety;
5. Peer committees will be formed to help students by monitoring the activities of students in hostel premises;
